## Waimea Grid 2

	Seed Items Detected	Number of False Positives
EM61 MKII	23 of 34	21
TM-5 <b>EMU</b>	34 of 34	7

**CEHNC** – “I applaud the success you’ve experienced with the TM-5**EMU**. I agree that the TM-5**EMU** is the instrument of choice out at Waikoloa and Waimea. It detects more of the seed items and is superior in locating the targets consistently within 0.5m from the seed items’ surveyed location.”
